teacher Launch

As part of the September 2015 teacher launch, the digital billboards across Times Square will be changed to the custom patterns from the pattern booths. These will change in real time via the teacher pattern generator. Times Square will also have a pattern booth for people to get involved with the campaign. For girls that can't access a pattern booth, the pattern generator app will be connected to the billboards so that any girl across the world can get involved with the launch. The pattern will credit the girl's name/age/country when used in any advertising or promotional material.

Key Facts

The information in this presentation was believed accurate and up to date at the time of delivery. We may however make changes from time to time to advertised courses or modules (or occasionally discontinue them), for example as a result of the way in which we continually seek to improve our academic provision and take on board feedback from students and other stakeholders, or to take account of changed circumstances.

For instance, we may not run an optional module if insufficient students have chosen it to make it viable or if a key member of staff who taught it is no longer available. For full details of when we might make changes, and how we will try to minimise any impact on people affected by them, please check our Key Facts Document at:
